INTIMUS FUSION

THE EASY, FLEXIBLE WAY TO
MANAGE YOUR POSTAGE
EXPENSES

- Designed to suit your business
- Can be used from any computer with appropriate network access

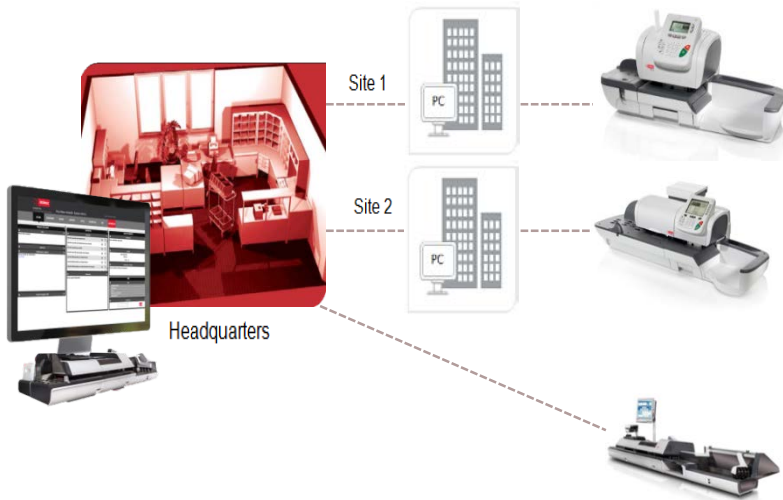

DESIGNED FOR
BUSINESSES
WITH MORE
SOPHISTICATED
NEEDS

intimus Fusion will collect, maintain and report on mail accounting data, helping you track and better control your business mail expenses. Productivity is naturally enhanced, with better management of all aspects of mail reporting and budgeting.

There's no need to install software on every user's PC. The easy-to-use, customizable user interface provides instant access to all mail data, in all mail rooms, in real time.

CONSOLIDATE FROM MULTIPLE MACHINES IN MULTIPLE LOCATIONS
 VIEW, PRINT OR EXPORT DATA FOR ANALYSIS
 TRACK ALL POSTAGE EXPENSES AND MAXIMIZE YOUR SAVINGS
 EASILY SET BUDGETS AND BE ALERTED IF EXPENDITURE EXCEEDS LIMITS

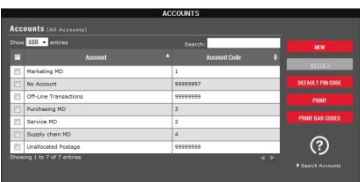

The main screen can be customized to suit your own preferences

The help section easily answers your questions

Monitor operations through the dashboard of all machines in all locations

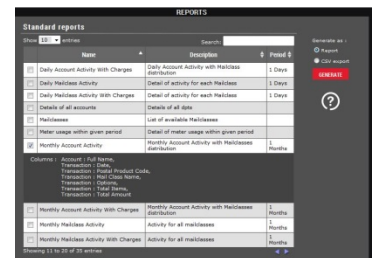

Unlimited number of accounts and sub-accounts with up to 36-digit account names

« 68% OF CUSTOMERS NEED TO SHARE DATA WITH OTHERS IN THEIR COMPANY. »

A RELIABLE, FLEXIBLE SOLUTION FOR MAILROOM MANAGEMENT.

intimus Fusion enables auditable editing and selective imports or exports of data, ensuring enhanced data management at your business. Data is automatically updated for absolute accuracy, and access to **data** is made simple via the peripheral view dashboard which provides always-on monitoring of activity in an unobtrusive way. The system offers unlimited account levels, offering users access to the information they need, when and where they need it.

Reporting model with standard and customized reports

« MOST COMPANIES WANT TO BE ABLE TO TRACK AND BETTER CONTROL THEIR POSTAGE EXPENSES. »

BETTER COST CONTROL AND EASIER ANALYSIS FOR FINANCIAL ADMINISTRATION.

Advanced data analysis comes easily with intimus Fusion, which ensures the integrity of your mail data. For example, accurate information as to what mail data was changed, who changed it and when is made available in seconds. Budget tracking is simplified; mail class usage, surcharges and assignment of expenses per department are all easily available. To make data analysis even easier, users can command graphic presentations of reports whenever they wish.

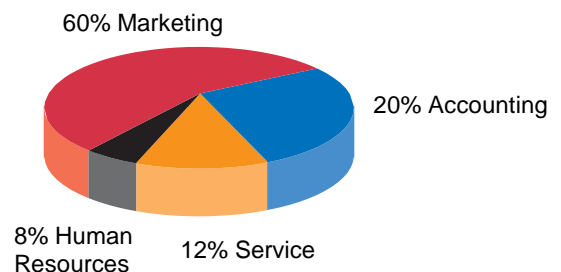

« 94% OF THE MAIL OPERATORS WHO TRANSMIT A REPORT TO THEIR SUPERIOR DO IT IN PAPER FORM. »

A SIMPLE, QUICK AND EASY-TO-USE SYSTEM FOR MAIL ROOM OPERATORS.

With easy and flexible access to the information you need, you save time and increase your productivity. The intimus Fusion main screen is simple to use, customizable and offers support for users in 4 languages. Most common user reports can be displayed, while the job is being processed. Moreover, you can take advantage of the data collected by intimus Fusion to get the best postal discounts.

GRAPHICAL REPORT SAMPLE
