

OPEX®

# Envelope Opener and Contents Extractor

## Why Model 72™?

The most cost-effective extraction desk device for mail extraction, engineered for high throughput rates of with less labor.

Designed with the operator in mind, the Model 72™ extraction desk is the perfect blend of ergonomics, ease-of-use and accessibility. The Model 72™ extraction desk provides an exceptional increase in measurable operator productivity. This adds up to increased operator satisfaction and more efficient mail opening and extracting.

## Features

### Specialized Cutting Technology

Milling cutting uses a smaller cut depth that significantly reduces the potential of cutting contents, which is optimal for a variety of documents including thick and overly filled envelopes. Milling cutting creates a soft, feathered edge which lends itself to additional operator comfort.

### Memory Verifier Unit

A precise measuring device is included to ensure that all envelope contents are truly extracted prior to the envelope being discarded.

### Performance Control Center

The Model 72™ extractor features a control center that can show envelope count and provide a statistical analysis of operator rates and productivity.

### Auto-Jogger

Each envelope is auto-jogged to shift contents away from both cut edges to achieve a new level of content protection and the ability to handle a wide array of envelopes.

## Advantages

### Secure

Each envelope is jogged to shift contents away from cut edges to keep contents secure and free from damage.

### Efficient

The Model 72™ extraction desk is designed to improve extraction throughput, while significantly reducing the amount of labor needed.

### Flexible

A wide variety of envelopes can be opened safely and accurately.

### Training

Easy to follow videos and instructor manuals ensure operators are up and running quickly and efficiently.

## Specifications

Envelope Feeding	Friction-based feeder up to 22" of mail
Envelope Width	3.5" – 6.38" (8.89 cm -16.21 cm)
Envelope Length	5" – 11.5" (12.7 cm x 29.21 cm)
Envelope Thickness	Up to 0.375" (0.953 cm)
Cycle Rate	Up to 3,600 mail pieces per hour
Top Cutter	Milling
Dimensions (H x W x D)	47" x 76" x 41" (119.4 cm x 193 cm x 104.1 cm)
Additional Features	Verifier Operator LCD Integrated workstation Tray Holder
Daily Duty Cycle	Unlimited
Popular Optional Features	Ergonomic desk chair
