MAIL, PARCEL & OFFICE SOLUTIONS

TSI-4s

Intelligent and easy Document Processing

▶ An easy-to-use desktop folder inserter that can be used to process all your mail

A DEPENDABLE ALL-IN-ONE MAIL MANAGEMENT SOLUTION

The TSI-4s is able to quickly and automatically process all standard mail management services as well as direct marketing applications.

This is achieved thanks to an easy-to-use graphic touch screen and highly developed ergonomics. Designed on the basis of a tried and tested platform, it is 100% reliable.

Your mail will be processed on time, every time.

MAXIMUM FLEXIBILITY FOR YOUR APPLICATION

The TSI-4s can be configured in several different ways and adapted to meet your every need. This versatility will automate your transactional mail targeted at customers and prospects to further develop your business activity. The flexFeed® function processes all document sizes including inserts, reply forms and return envelopes.

Additionally, the manual mail function allows you to process both stapled and unstapled mail that may contain a variable number of documents depending on the recipient.

TOUCH SCREEN

The 7" color display provides an intuitive wizard-based user interface for ease-of-use.

ENHANCED EASE OF USE

The TSI-4s is equipped with a 7" graphic touch screen that makes it easy to use and allows applications stored in the memory to be accessed quickly. A step-by-step wizard allows all users to define settings for their applications and store them in the memory for job recall.

The TSI-4s is a model of ergonomic efficiency and as such is well suited to automated processing. Additionally, its compact size and low noise level make it suitable for use in every work environment.

FLEXFEED®

flexFeed® feeders accomodate a wide variety of paper sizes

All-In-One Mail Management Solution

Graphic Touch Screen - For Intuitive Use

POWERFOLD™ - For Professional Folding

FLEXFEED® - To process each and every one of your

Mail Management Applications

Low Noise Level and Compact Size

- To suit every Work Environment

MAXIMUM SECURITY

With its Contact Image Sensor (CIS) scanner technology, the TSI-4s can read any type of coding such as OMR, OCR, 1D barcodes and 2D data matrix codes. The code can be printed anywhere on the document. The scanner reads the full A4 page and the barcode can be read horizontally or vertically. This unique feature provides full flexibility to fulfil any layout requirement.

INTEGRATED PROCESS

With our insert'n Mail" solution, you can automate your total mail flow by interfacing the TSI-4s to a intimus mailing system.

A choice of four configurations to cover all your mail management applications.
