

intimus CR-360 MCP

Manual creasing and
perforating machine

The robust manual creasing and perforating machine is a flexible and easy-to-use solutions for print shops, copy shops or bookbinders. Commonly used for greeting cards, invitations, brochures, booklets or vouchers, tickets.

2-in-1

Both creasing and perforating combined in one machine saves space and costs. Easy switch between creasing and perforating by changing the blade.

Precise

Measuring scale in mm and inches and flexible paper stops make sure the document has the correct position.

Long-lasting

The core mechanism is protected by a metal cover
