

intimus 7310 EPSH Powercut

Heavy duty full hydraulic guillotine

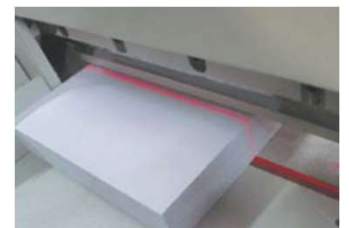

Compact, sturdy and automated hydraulic guillotine with robust metal construction to serve the customers for many years. Equipped with fully hydraulic knife and clamp the guillotine is able to cut easily paper stacks of up to 1000 sheets. Front and back air tables facilitate the work flow significantly. Suitable for heavy duty use in copy shops, digital printing houses or book binderies.

Convenient and precise operation

The user-friendly, fully programmable 7" touch screen with 100 individual programs with 100 steps in each program offers high flexibility and accuracy. Additional business card cutting mode integrated. 9 different languages as a standard, other available as option.

The LED optical cutting line indicator guarantees easy alignment of cutting marks for precise cuts. The electronic hand wheel facilitates manual backgauge positioning, accurate to the millimeter at variable speed.

Safety is guaranteed

IR safety curtain on the front table, safety cover on the rear table and automatic Knife and clamp return ensure the highest level of safety. Electronically controlled two-hand operation: executing a cut is only possible by pushing two buttons at the same time. Safe and easy Knife change with a Knife changing device.

intimus 7310 EPSH Powercut Touch screen

5 cutting Modes available

- 1. Manual absolute mode:** key in a value and the backgauge automatically moves to the set position.
- 2. Manual incremental mode :** the paper stack is cut in even parts.
- 3. Standard program mode :** program each step for the cuts to be made, up to 100 steps. For each step operator can program eject, paper rotation to left or right and air table activation. After each cut backgauge moves to next step. Possible to save job names on top of job numbers.
- 4. Cut and save program mode :** allows the operator to set manually each step and cut. After each cut the step will be automatically saved as next program step until the full program is created.
- 5. Card cutting program :** allows to make sequence of cuts with same distance (card size) or 2 changing dimensions (card size and gutter). This makes card cutting jobs user friendly.

Technical specification overview

Article No.	INT-GU-07310EPSHP
Cutting depth	710 mm Automatic / 730 Manual
Cutting width	730 mm
Cutting height	100 mm / 97 mm with false clamp
Narrow cut	30 mm / 60 mm with false clamp
Cutting capacity	1000 sheets
Knife drive	Hydraulic
Clamp drive	Hydraulic
Optical cutting line	Yes
IR safety curtain	Yes
Air tables	Yes, as standard
Foot clamp	Yes
Noise level	75 db(A)
Weight	600 kg
Dimensions (W x D x H)	1855 x 1755 x 1460 mm (with side tables)
Power consumption	3000 W
Power supply	400V / 50 Hz

Accessories

Article No.	Description	Quantity
