

intimus 4908EP

Electric Guillotine

Programmable electric guillotine, with infrared safety beam, cutting width of 490 mm and height of 80 mm.

Robust

Robust guillotine with stand included for cutting up to 800 sheets. Suitable for medium-high use in offices, copy shops, digital printing houses etc.

Precise and easy to use

The 7" touch panel allows you to control the entire equipment and easily select pre-programmed settings. Up to 99 individual programs can be stored in memory with 99 steps in each program. The LED optical cutting line ensures easy alignment of cutting marks for precise cuts. The electronic handwheel facilitates manual positioning of the rear stop, with millimeter precision at variable speed.

Safe

Two-handed operation: executing a cut is only possible by pressing two buttons at the same time. The infrared security beam prevents access to the cutting area during the process. Safe and easy blade changing with a blade changing device.
